23 error Make sure you have the latest version of node.js and npm
installed.
23 error If you do, this is most likely a problem with the expressjs
package,
23 error not with npm itself.
23 error Tell the author that this fails on your system:
23 error     nodemon -e css,ejs,js,json --watch app --ignore
feedback.json
23 error You can get information on how to open an issue for this
project with:
23 error     npm bugs expressjs
23 error Or if that isn't available, you can get their info via:
23 error     npm owner ls expressjs
23 error There is likely additional logging output above.
